INSTALLATION OPTIONS

Counter-top Unit

The BluPura Glass is a top of the range, highly elegant countertop bottling system, with state-of-the-art technology offering a variety of water options.

Portion control allows the customisation of the dispense doses for a convenient and fast service. It integrates the energy saving device, ensuring stand-by operation of the machine with consumption reduced by 75% compared to full operation.

DIMENSIONS

Height:	579mm
Width:	400mm
Depth:	580mm
Dispense height:	313mm

First-class functionality and performance, in a compact machine. The counter-top BluPura Glass is the perfect water dispenser for large office and catering environments.

TYPICAL SPECIFICATION

With totally natural refrigerants the Bluepura Glass is an ecological choice. The unit is made entirely of stainless steel, with tempered glass front, and robust push button operation.

The high-quality stainless steel buttons can be programmed to dispense a specific amount of water, using the portion control feature.

AVAILABLE ACCESSORIES

Model	Chilled litres/hr	Sparkling litres/hr	Unit dimensions (mm)
BluPura Glass	80	80	W 400 x D 580 x H 579

UNIT DIMENSIONS

INSTALLATION REQUIREMENTS

The BluPura Glass requires adequate worktop space for installation. Please ensure that the following is available where the unit is to be installed:

- ✓ **Minimum installation worktop space:**
W 440mm x D 620mm (incorporates drip tray).
Minimum height clearance requirement: H 579mm.
- ✓ A potable mains water supply within 5 metres of unit installation location.
- ✓ A 240-volt electric socket within 1 metre of unit location.
- ✓ A cylinder of food grade CO₂ gas.
(Applies to customers choosing a sparkling water option only.)
- ✓ Worktops are clear and in a finished state.
- ✓ Sufficient ventilation is in place for the refrigerated unit.

All of the above can be confirmed in your site survey.
