INSTALLATION OPTIONS

Countertop
Unit

The ArcticStar 55 counter-top mains fed water dispenser is designed for simplicity and robustness, with manual taps to easily dispense water at the desired temperature. The in-built Eco Sensor turns the boiler off when the office lights are switched off, saving up to 33% in electricity.

DIMENSIONS

Height:	460mm
Width:	340mm
Depth:	340mm
Dispense height:	170mm

FULL SPECIFICATION ArcticStar 55 Countertop Model

Max power consumption	220-240V / 50hz
Throughput litres per hour	35L/h
Dimensions	340mm (W) x 340mm (D) x 445mm (H)
	Dispense height: 290mm
Weight	16kg

OPERATION

Green light:

Power ON

Pulsing orange light

Indicates heating to standard 92°C

Solid orange light

Standard temperature range of 92°C / 82°C

Pulsing red light

Boosting to 95°C / 96°C

Solid red light

1.5 ltr of boosted hot water of 96°C / 90°C

Hot water booster

The hot water booster is located on the right hand side of the dispenser. Keep finger on booster icon until you hear second beep. Orange or red light will change to pulsing red. Once pulsing stops, lights will show red

In case the ArcticStar 55 is located in a dark area, it may be necessary to disable the ECO function by switching it OFF on the back of the Cooler.
